

5 Questions, that are asked by most users

Question:

I have large amount of photos, that are messed up and I even don't know, what to do with them, how to find and view photos, that I need. Can Sort Photos sort these photos for me?

Answer:Yes. All your photos will be sorted automatically, even if you have thousands of them. You just specify folder, photos in which should be sorted using user-friendly wizard and photos are sorted automatically.

Question:

I want to select for myself, how my photos should be sorted. For example, I want them to be sorted by creation date. Can Sort Photos sort photos directly as I want?

Answer:

Yes. Sort Photos give you ability to sort photos directly as you want - by photos creation date, by camera model, by content, by size and many others - you always may select one of popular photo sorting methods or specify your own, that best match to your needs.

Question:

I have many photos; some of them are in rare photo formats. Can Sort Photos sort them all?

Answer:

Yes. Sort Photos support more than 689 photo formats, so all your photos of all types will be sorted, even of rare types.

Question:

I want my photos to be sorted qualitative. Can it be done with Sort Photos, or I should sort photos only manually?

Answer:

Yes. Sort Photos while photos sorting collect all available information about photos, which should be sorted, to get maximum possible photo sorting quality. Sort Photos use EXIF, IPTC, MakerNote, TIFF, GeoTIFF, GPS, FlashPix, ICC, XMP, Photoshop IRB, AFCP and many other photo tags information to sort photos as good, as possible (more than 9876 photo tags are currently supported and their count is constantly increasing).

Question:

Many of my photos are packed in ZIP and RAR archives. Can they be automatically extracted and sorted too?

Answer:

Yes. Sort Photos will sort all your photos, even if they are in ZIP and RAR archives.

Question:

Does Sort Photos support EXIF / IPTC tags?

Answer:

Yes. Sort Photos use EXIF, IPTC, MakerNote, TIFF, GeoTIFF, GPS, FlashPix, ICC, XMP, Photoshop IRB, AFCP and

many other photo tags information to sort photos as good, as possible (more than 9876 photo tags are currently supported and their count is constantly increasing).

Question:

Can Sort Photos sort my JPG, BMP, RAW photos and photos of other types?

Answer:
